EXPERIENCE

CONVERSATIONS.IM | GOOGLE SUMMER OF CODE STUDENT

May 2018 – Aug 2018 | Remote

- Planned, designed and developed a web service for testing the compliance of servers with XMPP extensions using Java and Spark web framework under the mentorship of Daniel Gultsch.
- Created a custom graphing framework based on d3.js for exploring statistics.
- Created a custom email subscription system for sending alerts to server admins.
- All code was reviewed, perfected, and pushed to production.

PROJECTS

EXERCISE COUNTER

<https://github.com/RishiRaj22/ExerciseCounter>

An android app to manage your exercise sessions.

- Use hands free with text to speech countdown timer.
- See your daily/weekly workout stats graphically.
- Set alarms for your exercise sessions.

BITTERSWEET

<https://github.com/RishiRaj22/bittersweet>

A real time, reactive Meteor.JS web app inspired by Black Mirror. Rate your friends and get rated by them.

LD NOTIFY

<https://github.com/RishiRaj22/LD-Notify-App>

An android app that notifies users about new ratings and feedback on their Ludum Dare entry.
